Neptune Website

The Neptune website has been given a face lift. The past website was created in Adobe Flash. It is now written and created using HTML and CSS coding which is more browser friendly. And is readable for the search engines, (Google & Bing) that 'crawl' the site and rank it for relevant content. Please review it and let John Touscany know how it displays on your computer. The Neptune website is an evolving entity and there's always room for constructive suggestion and improvement. Check it out here: www.neptunesdiveclub.com

Porte des Morts Staircase Project

The **Fox Valley Scuba Club** is hosting an October Pumpkin Dive to raise money for the Staircase Project. That **Pumpkin Dive** is scheduled for 3 PM Saturday, October 22nd at the West Point Dive Quarry, Lohrville, WI. Contact www.mountainbay.com for more information.

The objective of this project is to build a staircase from the top of the bluff to the shore below at Porte des Morts Park. Currently, there is no safe way to get to the shore, 30 ft. below. Building a staircase to the shore will benefit all park visitors providing much valued shore access for diving, swimming, hiking and enjoying the beauty of Door County.
